Subject Index, Volume 162

Abdominal aortic aneurysms
The natural history of abdominal aortic aneurysms; 481

Abdominal aortic surgery
Ureteral obstruction after abdominal aortic surgery; 86

Abscess
Effect of intraperitoneal administration of oxygen on the course of experimentally induced peritonitis; 228

Acquired immunodeficiency syndrome
Acute appendicitis in patients with AIDS/HIV infection; 9
Major salivary gland lymphoepithelial lesions and the acquired immunodeficiency syndrome; 324

Adenocarcinoma
Metastatic adenocarcinoma to the neck from an unknown primary source; 306

Adenoid cystic carcinoma
Flow cytometric evaluation of adenoid cystic carcinoma: correlation with histologic subtype and survival; 367

Air embolism
Cardio-cerebrovascular complications from Nd:YAG laser treatment of lung cancer; 629

Alimentary tract
Symptomatic congenital alimentary tract lesions in adults; 545

Allen Brown shunt
The Allen Brown shunt: a useful option for vascular access; 24

Amputation
Outcome of complex vascular and orthopedic injuries of the lower extremity; 111

Anal carcinomas
Recent experience with squamous cell carcinoma of the anal canal; 580

Anastomoses
Results of 1,000 single-layer continuous polypropylene intestinal anastomoses; 461

Anesthesia
Ambulatory stab evulsion phlebectomy for truncal varicose veins; 166

Aneurysm resection
Thoracoabdominal aneurysm resection after previous infrarenal abdominal aortic aneurysmectomy; 142

Aortic aneurysmectomy
Thoracoabdominal aneurysm resection after previous infrarenal abdominal aortic aneurysmectomy; 142

Aortic bypass
Role of supraceliac aortic bypass for visceral artery reconstruction; 611

Aortic graft infection
Total excision and extra-anatomic bypass for aortic graft infection; 145

Aortic reconstruction
Safety of simultaneous aortic reconstruction and renal transplantation; 126

Aorto-iliac disease
Unilateral aortofemoral bypass: a safe and effective option for the treatment of unilateral limb-threatening ischemia; 155

Aorto-iliac reconstruction
Ischemic injury to the spinal cord or lumbosacral plexus after aorto-iliac reconstruction; 131

Aortoenteric fistula
Computed tomographic scan confirmation of paraprosthetic enteric fistula; 36

Appendicitis
Acute appendicitis in patients with AIDS/HIV infection; 9

Arterial diseases
Safety of simultaneous aortic reconstruction and renal transplantation; 126

Arterial reconstruction
Arterial reconstruction of the pancreatic allograft for transplantation; 262

Arterial trauma
Outcome of complex vascular and orthopedic injuries of the lower extremity; 111
Utility of arteriography in penetrating injuries; 163

Arteriography
Utility of arteriography in penetrating injuries; 163

Arteriosclerosis
Arteriographic findings in EDTA chelation therapy on peripheral arteriosclerosis; 122

Artery occlusion
Clinical implications of combined hypogastric and profunda femoral artery occlusion; 137

Ascorbic acid
Effects of N-acetyl-L-cysteine and ascorbic acid on mutagen-induced chromosomal sensitivity in patients with head and neck cancers; 294

Aspiration cytology
Lymph node staging in patients with clinically negative neck examinations by ultrasound and ultrasound-guided aspiration cytology; 362

Atherosclerosis
Which asymptomatic patients should undergo routine screening carotid duplex scan?; 180

Autopsy
Autopsy in general surgery practice; 585

Autotransfusion
Autotransfusion of unwashed mediastinal shed blood fails to decrease banked blood requirements in patients undergoing aortocoronary bypass surgery; 477

Axillary node dissection
Axillary node dissection in malignant melanoma; 202

Balloon angioplasty catheter
Ultrasound-guided balloon angioplasty is a new technique for vascular surgeons; 117

Balloon dilatation injury
Origin of cells that line damaged native blood vessels following endothelial cell transplantation; 107

Bancroft closure
Management of the difficult duodenal stump; 522

Banded gastroplasty
Weight control after vertical banded gastroplasty for morbid obesity; 13

Bile duct
Avoidance of bile duct injury during laparoscopic cholecystectomy; 71

Bile duct injury
Avoidance of bile duct injury during laparoscopic cholecystectomy; 71

Biliary external prosthesis
External annular prosthesis in repair of biliary tract stricture; 77

Biliary stenosis
External annular prosthesis in repair of biliary tract stricture; 77

Biliary stricture
External annular prosthesis in repair of biliary tract stricture; 77

Bleb
Value of computed tomography of the lung in the management of primary spontaneous pneumothorax; 39

Blood banking
Autotransfusion of unwashed mediastinal shed blood fails to decrease banked blood requirements in patients undergoing aortocoronary bypass surgery; 477

Blood cultures
Are blood cultures effective in the evaluation of fever in perioperative patients?; 615

Blunt trauma
Rational screening and treatment strategy based on the electrocardiogram alone for suspected cardiac contusion, a; 537

Bowel obstruction
Complicated presentations of groin hernias; 568
Small bowel obstruction in patients with a prior history of cancer; 624

Bowel perforation
Syndrome of multiple bowel perforations in liver transplant recipients; 594

Breast cancer
Breast cancer in women under 35 years of age; 197
Long-term results of a combined modality approach in treating inflammatory carcinoma of the breast; 231

Cancer
Small bowel obstruction in patients with a prior history of cancer; 624

Capillary permeability
Hydroxyethyl starch macromolecule and superoxide dismutase effects on myocardial reperfusion injury; 59

Carotid artery disease
Which asymptomatic patients should undergo routine screening carotid duplex scan?; 180

Carotid endarterectomy
Late follow-up of carotid endarterectomy with venous patch angioplasty; 50
Stump pressure, the contralateral carotid artery, and electroencephalographic changes; 185

Carotid stump pressure
Stump pressure, the contralateral carotid artery, and electroencephalographic changes; 185

Carotid surgery
Impact of changing attitudes in carotid surgery on community hospital practice; 190

Cell proliferation
Evaluation of ornithine decarboxylase activity as a marker for tumor growth rate in malignant tumors; 288
Proliferative pattern of head and neck cancer; 412

Centrifugal pump
A unified approach to the torn thoracic aorta; 473

Chemoprevention
Effects of N-acetyl-L-cysteine and ascorbic acid on mutagen-induced chromosomal sensitivity in patients with head and neck cancers; 294

Chemotherapy
Long-term results of a combined modality approach in treating inflammatory carcinoma of the breast; 231
Results of radical radiotherapy for inflammatory breast cancer; 236

Cholesterol
Effect of bile diversion and sphincterotomy on gallbladder muscle contractility and gallstone formation; 31

Cisplatin
Concomitant cisplatin and hyperfractionated external beam irradiation for advanced malignancy of the head and neck; 393

Clinical staging
Lymph node staging in patients with clinically negative neck examinations by ultrasound and ultrasound-guided aspiration cytology; 362
Supraomohyoid neck dissection with frozen section biopsy as a staging procedure in the clinically node-negative neck in carcinoma of the oral cavity; 373
The importance of clinical staging of minor salivary gland carcinomas; 330

Colectomy
Preexisting disease as a predictor of the outcome of colectomy; 497

Colon
Melanoma metastatic to stomach, small bowel, or colon; 208

Colon polyps
Preexisting disease as a predictor of the outcome of colectomy; 497

Color Doppler ultrasound
Color Doppler ultrasound imaging in iatrogenic arterial injuries; 4

Colorectal carcinomas
A prospective clinicopathologic study of venous invasion in colorectal cancer; 216
Editorial comment (E); 215
Laser palliation for colorectal carcinoma; 212

Colorectal surgery
Changing patterns in the morbidity and mortality of colorectal surgery; 83
Hemodynamics in the prone jackknife position during surgery; 55

Colostomy closure
Morbidity and mortality of ostomy closure; 633

Community hospital
Impact of changing attitudes in carotid surgery on community hospital practice; 190

Computed tomography
Value of computed tomography of the lung in the management of primary spontaneous pneumothorax; 39

Congenital lesions
Symptomatic congenital alimentary tract lesions in adults; 545

Corticosteroids
Alterations in gastrointestinal motility during postoperative acute corticosteroid withdrawal; 251

Craniofacial defects
Closure of craniofacial defects after cancer resection; 408
Influence of radiotherapy on microvascular reconstruction in the head and neck region; 404

Cryoamputation
Current role of cryoamputation; 647

Cyclosporine
Peptic ulcer disease following renal transplantation in the cyclosporine era; 558

Cytochrome aa_3
Beneficial effects of isovolemic hemodilution using a perfluorocarbon emulsion in a stroke model; 103

Deep venous thrombosis
Heparin, deep venous thrombosis, and trauma patients; 159

Diabetic foot infections
Impact of magnetic resonance imaging on the management of diabetic foot infections; 150

Diagnostic peritoneal lavage
Unreliability of standard quantitative criteria in diagnostic peritoneal lavage performed for suspected penetrating abdominal stab wounds; 223

Dialysis
Complications of dialysis access: a six-year study; 265

Diaphragmatic hernia
Congenital diaphragmatic hernia beyond infancy; 643

Diverticular disease
General surgical problems requiring operation in postoperative vascular surgery patients; 247

Doxorubicin
Distribution and metabolism of doxorubicin in rats undergoing testicular circulatory isolation; 572

Duodenal stump
Management of the difficult duodenal stump; 522

Duodenal ulcer
General surgical problems requiring operation in postoperative vascular surgery patients; 247

Duodenostomy
Management of the difficult duodenal stump; 522

Duplex scan
Which asymptomatic patients should undergo routine screening carotid duplex scan?; 180

Duplex ultrasonography
Ultrasound-guided balloon angioplasty is a new technique for vascular surgeons; 117

Editorials
Concealed progress in the management of severe surgical infection; 195
Continued comments on changes in the education of residents in surgery; 1
Editorial comment; 70, 215, 460
Janus syndrome, the; 512
The making of a head and neck surgeon; 284

EDTA chelation therapy
Arteriographic findings in EDTA chelation therapy on peripheral arteriosclerosis; 122

Electrocardiogram
Rational screening and treatment strategy based on the electrocardiogram alone for suspected cardiac contusion, a; 537

Electrocardiographic monitoring
Stump pressure, the contralateral carotid artery, and electroencephalographic changes; 185

Electrocautery
Effects of electrocautery on midline laparotomy wound infection; 620

End-stage renal disease
Safety of simultaneous aortic reconstruction and renal transplantation; 126

Endarterectomy
Endarterectomy: the beginning of modern vascular surgery; 94

Endothelial cell transplantation
Origin of cells that line damaged native blood vessels following endothelial cell transplantation; 107

Esophageal cancer
Impact of transhiatal esophagectomy on cardiac and respiratory function; 563
Pyloroplasty versus no drainage in gastric replacement of the esophagus; 447

Esophageal reflux
Etiology and importance of alkaline esophageal reflux; 553

Esophagitis
Etiology and importance of alkaline esophageal reflux; 553

Esophagojejunostomy
Stapled or manual suturing in esophagojejunostomy after total gastrectomy: a comparison of outcome in 379 patients; 256

Extra-anatomic bypass
Total excision and extra-anatomic bypass for aortic graft infection; 145

Femoropopliteal bypass
Bypass grafting to the popliteal artery in limbs with occluded crural arteries; 19

Fever
Are blood cultures effective in the evaluation of fever in perioperative patients?; 615

Fluorescence
Origin of cells that line damaged native blood vessels following endothelial cell transplantation; 107

Gallbladder contractility
Effect of bile diversion and sphincterotomy on gallbladder muscle contractility and gallstone formation; 31

Gastric cancers
Stapled or manual suturing in esophagojejunostomy after total gastrectomy: a comparison of outcome in 379 patients; 256

Gastric transposition
Gastric transposition for head and neck cancers: a critical update; 348

Gastrointestinal motility
Alterations in gastrointestinal motility during postoperative acute corticosteroid withdrawal; 251

Gastrointestinal tract
Melanoma metastatic to stomach, small bowel, or colon; 208

Gastroplasty
Weight control after vertical banded gastroplasty for morbid obesity; 13

Gastrostomy
Percutaneous endoscopic gastrostomy in patients with head and neck malignancies; 381

Gentamicin
Local gentamicin application for perineal wound healing following abdominoperineal rectum excision; 438

Glottic carcinomas
Comparison of surgery and radiotherapy in T1 and T2 glottic carcinomas; 337
Partial laryngectomy for glottic carcinomas after high-dose radiotherapy; 341
Subtotal laryngectomy with crico-hyoido-epiglotto-pexy for the treatment of extended glottic carcinomas; 357

Glucose
Effects of glucose on circulating and ileal intraluminal peptide YY and pancreatic polypeptide release; 268

Grading
Pass/fail grading: a disadvantage for students applying for residency; 63

Groin hernias
Complicated presentations of groin hernias; 568
Role of herniography in the diagnosis of occult hernias; 608

Hartmann procedure
Morbidity and mortality of ostomy closure; 633

Head and neck cancers
Augmentation of the lymphokine-activated killer cell response in head and neck cancer patients by combination interleukin-2 and interferon-alpha; 384
Closure of craniofacial defects after cancer resection; 408
Comparison of surgery and radiotherapy in T1 and T2 glottic carcinomas; 337
Concomitant cisplatin and hyperfractionated external beam irradiation for advanced malignancy of the head and neck; 393
Early pharyngolaryngeal carcinomas with palpable nodes; 377
Effects of N-acetyl-L-cysteine and ascorbic acid on mutagen-induced chromosomal sensitivity in patients with head and neck cancers; 294
Experience with 998 cutaneous melanomas of the head and neck over 30 years; 310
Flow cytometric evaluation of adenoid cystic carcinoma: correlation with histologic subtype and survival; 367
Gastric transposition for head and neck cancers: a critical update; 348
Hypothyroidism following combined treatment for hypopharyngeal and laryngeal carcinoma; 345
Influence of radiotherapy on microvascular reconstruction in the head and neck region; 404
Intraoral soft tissue reconstruction after cancer ablation: a comparison of the pectoralis major flap and the free radial forearm flap; 397
Metastatic adenocarcinoma to the neck from an unknown primary source; 306
Partial laryngectomy for glottic carcinomas after high-dose radiotherapy; 341
Patterns of regional lymph node metastases from cutaneous melanomas of the head and neck; 320
Percutaneous endoscopic gastrostomy in patients with head and neck malignancies; 381
Proliferative pattern of head and neck cancer; 412
Prospective management of nodal metastases in differentiated thyroid carcinomas; 353
Recurrences of oral cancer due to discontinuous periosteal involvement; 388
Subtotal laryngectomy with crico-hyoido-epiglotto-pexy for the treatment of extended glottic carcinomas; 357
Supraomohyoid neck dissection with frozen section biopsy as a staging procedure in the clinically node-negative neck in carcinoma of the oral cavity; 373
The importance of clinical staging of minor salivary gland carcinomas; 330
The infrahyoid musculocutaneous flap in head and neck reconstruction; 400
The prognostic implications of location for scalp melanoma; 315

Health care
Janus syndrome, the (E); 512

Hemodialysis
The Allen Brown shunt: a useful option for vascular access; 24

Hemodilution
Beneficial effects of isovolemic hemodilution using a perfluorocarbon emulsion in a stroke model; 103

Hemodynamics
Hemodynamics in the prone jackknife position during surgery; 55

Heparin
Heparin, deep venous thrombosis, and trauma patients; 159

Hepatic resection
Insulinopenia as a risk factor in hepatectomy and its resolution by intraportal insulin administration; 43

Hernia
Slit mesh for hernia repair; 260

Herniography
Role of herniography in the diagnosis of occult hernias; 608

Hodgkin's disease
Staging laparotomy in Hodgkin's lymphoma 1979-1988; 603

Human immunodeficiency virus
Value of lymph node biopsy in the treatment of patients with the human immunodeficiency virus (HIV); 590

Hydronephrosis
Ureteral obstruction after abdominal aortic surgery; 86

Hydroxyethyl starch macromolecule
Hydroxyethyl starch macromolecule and superoxide dismutase effects on myocardial reperfusion injury; 59

Hyperparathyroidism
Operative monitoring of parathyroid hormone gland hyperfunction; 299

Hypogastric ischemia
Clinical implications of combined hypogastric and profunda femoral artery occlusion; 137

Hypopharyngeal carcinoma
Hypothyroidism following combined treatment for hypopharyngeal and laryngeal carcinoma; 345

Hypothyroidism
Hypothyroidism following combined treatment for hypopharyngeal and laryngeal carcinoma; 345

Iatrogenic injury
Color Doppler ultrasound imaging in iatrogenic arterial injuries; 4

Ileoanal pullthrough
Factors associated with nighttime incontinence following ileoanal pullthrough; 599

Incontinence
Factors associated with nighttime incontinence following ileoanal pullthrough; 599

Inferior laryngeal nerve
Nonrecurrent and recurrent inferior laryngeal nerve: a surgical pitfall in cervical exploration; 495

Inflammatory breast carcinoma
Long-term results of a combined modality approach in treating inflammatory carcinoma of the breast; 231
Results of radical radiotherapy for inflammatory breast cancer; 236

Inguinal hernias
A technique for repair of recurrent indirect inguinal hernias; 484

Insulin
Insulinopenia as a risk factor in hepatectomy and its resolution by intraportal insulin administration; 43

Insulinopenia
Insulinopenia as a risk factor in hepatectomy and its resolution by intraportal insulin administration; 43

Interferon-alpha
Augmentation of the lymphokine-activated killer cell response in head and neck cancer patients by combination interleukin-2 and interferon-alpha; 384

Interleukin-2
Augmentation of the lymphokine-activated killer cell response in head and neck cancer patients by combination interleukin-2 and interferon-alpha; 384

Interstitial edema
Hydroxyethyl starch macromolecule and superoxide dismutase effects on myocardial reperfusion injury; 59

Intraperitoneal antibiotics
Efficacy of intraperitoneal antibiotics in the treatment of severe fecal peritonitis; 453

Intraperitoneal oxygen
Effect of intraperitoneal administration of oxygen on the course of experimentally induced peritonitis; 228

Intussusception
Melanoma metastatic to stomach, small bowel, or colon; 208

J-pouch anal anastomosis
Hemodynamics in the prone jackknife position during surgery; 55

Laparoscopic cholecystectomy
Avoidance of bile duct injury during laparoscopic cholecystectomy; 71
Results of laparoscopic cholecystectomy in a university hospital; 576

Laryngeal carcinomas
Hypothyroidism following combined treatment for hypopharyngeal and laryngeal carcinoma; 345

Laryngectomy
Partial laryngectomy for glottic carcinomas after high-dose radiotherapy; 341
Subtotal laryngectomy with crico-hyoido-epiglotto-pexy for the treatment of extended glottic carcinomas; 357

Laser
Editorial comment (E); 215
Laser palliation for colorectal carcinoma; 212

Leukocytes
Induction of leukocyte activation by meshes surgically implanted in the peritoneal cavity; 243

Limb ischemia
Delayed thromboembolectomy for subacute limb ischemia; 468

Limb salvage
Outcome of complex vascular and orthopedic injuries of the lower extremity; 111

Liver transplant
Syndrome of multiple bowel perforations in liver transplant recipients; 594

Lloyd-Davies position
Hemodynamics in the prone jackknife position during surgery; 55

Lumbosacral plexus
Ischemic injury to the spinal cord or lumbosacral plexus after aorto-iliac reconstruction; 131

Lung
Value of computed tomography of the lung in the management of primary spontaneous pneumothorax; 39

Lung cancer
Cardio-cerebrovascular complications from Nd:YAG laser treatment of lung cancer; 629

Lymph node biopsy
Value of lymph node biopsy in the treatment of patients with the human immunodeficiency virus (HIV); 590

Lymphangiography
Staging laparotomy in Hodgkin's lymphoma 1979-1988; 603

Lymphatic drainage
Redefinition of cutaneous lymphatic drainage with the use of lymphoscintigraphy for malignant melanoma; 432

Lymphoepithelial lesions
Major salivary gland lymphoepithelial lesions and the acquired immunodeficiency syndrome; 324

Lymphoscintigraphy
Redefinition of cutaneous lymphatic drainage with the use of lymphoscintigraphy for malignant melanoma; 432

Magnetic resonance imaging
Impact of magnetic resonance imaging on the management of diabetic foot infections; 150

Malignant melanoma
Axillary node dissection in malignant melanoma; 202
Experience with 998 cutaneous melanomas of the head and neck over 30 years; 310
Melanoma metastatic to stomach, small bowel, or colon; 208
Patterns of regional lymph node metastases from cutaneous melanomas of the head and neck; 320
Redefinition of cutaneous lymphatic drainage with the use of lymphoscintigraphy for malignant melanoma; 432
Role of surgical intervention in the management of intestinal metastases from malignant melanoma; 428
The prognostic implications of location for scalp melanoma; 315

Medical education
Continued comments on changes in the education of residents in surgery (E); 1
The making of a head and neck surgeon (E); 284

Medical student evaluation
A model for the assessment of students' physician-patient interaction skills on the surgical clerkship; 271

Mesh
Induction of leukocyte activation by meshes surgically implanted in the peritoneal cavity; 243
Slit mesh for hernia repair; 260

Metastases
Axillary node dissection in malignant melanoma; 202
Lymph node staging in patients with clinically negative neck examinations by ultrasound and ultrasound-guided aspiration cytology; 362
Melanoma metastatic to stomach, small bowel, or colon; 208
Role of surgical intervention in the management of intestinal metastases from malignant melanoma; 428

Microvascular reconstruction
Influence of radiotherapy on microvascular reconstruction in the head and neck region; 404

Misdiagnosis
Editorial comment (E); 460
Undetected injuries: a preventable cause of increased morbidity and mortality; 457

Morbid obesity
Weight control after vertical banded gastroplasty for morbid obesity; 13

Morbidity
Changing patterns in the morbidity and mortality of colorectal surgery; 83

Mortality
Changing patterns in the morbidity and mortality of colorectal surgery; 83

Myocardial contusion
Rational screening and treatment strategy based on the electrocardiogram alone for suspected cardiac contusion, a; 537

N-acetyl-L-cysteine
Effects of N-acetyl-L-cysteine and ascorbic acid on mutagen-induced chromosomal sensitivity in patients with head and neck cancers; 294

Nd:YAG laser
Cardio-cerebrovascular complications from Nd:YAG laser treatment of lung cancer; 629

Neck
Validating the selective management of penetrating neck wounds; 517

Neoplasms
Breast cancer in women under 35 years of age; 197

Nissen closure
Management of the difficult duodenal stump; 522

Obesity
Weight control after vertical banded gastroplasty for morbid obesity; 13

Occluded crural arteries
Bypass grafting to the popliteal artery in limbs with occluded crural arteries; 19

Octreotide
The therapeutic role of octreotide in the management of surgical disorders; 499

Oncologists
The making of a head and neck surgeon (E); 284

Oral cavity carcinomas
Intraoral soft tissue reconstruction after cancer ablation: a comparison of the pectoralis major flap and the free radial forearm flap; 397
Recurrences of oral cancer due to discontinuous periosteal involvement; 388
Supraomohyoid neck dissection with frozen section biopsy as a staging procedure in the clinically node-negative neck in carcinoma of the oral cavity; 373

Ornithine decarboxylase
Evaluation of ornithine decarboxylase activity as a marker for tumor growth rate in malignant tumors; 288

Osler
Osler and his thoughts for us in 1991; 99

Ostomy closure
Morbidity and mortality of ostomy closure; 633

Outpatient surgery
Outpatient parotidectomy; 303

Pancreas
Summary of pancreas club meeting; 421

Pancreatic cancers
Pancreaticoduodenectomy for malignant pancreatic and periampullary neoplasms in elderly patients; 532

Pancreatic cysts
Proliferative pancreatic cysts: pathogenesis and treatment options; 274

Pancreatic polypeptide
Effects of glucose on circulating and ileal intraluminal peptide YY and pancreatic polypeptide release; 268

Pancreatic pseudocysts
Influence of the etiology of pancreatitis on the natural history of pancreatic pseudocysts; 527

Pancreatic transplantation
Arterial reconstruction of the pancreatic allograft for transplantation; 262

Pancreaticoduodenectomy
Pancreaticoduodenectomy for malignant pancreatic and periampullary neoplasms in elderly patients; 532

Pancreatitis
Influence of the etiology of pancreatitis on the natural history of pancreatic pseudocysts; 527

Paraplegia
Ischemic injury to the spinal cord or lumbosacral plexus after aorto-iliac reconstruction; 131

Paraprosthetic enteric fistula
Computed tomographic scan confirmation of paraprosthetic enteric fistula; 36

Parathyroid hormone
Operative monitoring of parathyroid hormone gland hyperfunction; 299

Parathyroidectomy
Operative monitoring of parathyroid hormone gland hyperfunction; 299

Parotidectomy
Outpatient parotidectomy; 303
Patterns of regional lymph node metastases from cutaneous melanomas of the head and neck; 320

Pelvic ischemia
Clinical implications of combined hypogastric and profunda femoral artery occlusion; 137

Penetrating trauma
Unreliability of standard quantitative criteria in diagnostic peritoneal lavage performed for suspected penetrating abdominal stab wounds; 223
Utility of arteriography in penetrating injuries; 163
Validating the selective management of penetrating neck wounds; 517

Peptic ulcer
Peptic ulcer disease following renal transplantation in the cyclosporine era; 558

Peptide YY
Effects of glucose on circulating and ileal intraluminal peptide YY and pancreatic polypeptide release; 268

Perfluorocarbon
Beneficial effects of isovolemic hemodilution using a perfluorocarbon emulsion in a stroke model; 103

Perineal wound healing
Local gentamicin application for perineal wound healing following abdominoperineal rectum excision; 438

Peripheral vascular disease
Which asymptomatic patients should undergo routine screening carotid duplex scan?; 180

Peritonitis
Effect of intraperitoneal administration of oxygen on the course of experimentally induced peritonitis; 228
Efficacy of intraperitoneal antibiotics in the treatment of severe fecal peritonitis; 453

Pharyngolaryngeal carcinomas
Early pharyngolaryngeal carcinomas with palpable nodes; 377

Pharyngolaryngoesophagectomy
Gastric transposition for head and neck cancers: a critical update; 348

Physician-patient relationship
A model for the assessment of students' physician-patient interaction skills on the surgical clerkship; 271

Physiologic amputation
Current role of cryoamputation; 647

Portal vein
Insulinopenia as a risk factor in hepatectomy and its resolution by intraportal insulin administration; 43

Profunda femoral ischemia
Clinical implications of combined hypogastric and profunda femoral artery occlusion; 137

Programmed reading
Impact of programmed reading on ABSITE performance; 487

Prone jackknife position
Hemodynamics in the prone jackknife position during surgery; 55

Pseudoaneurysm
Color Doppler ultrasound imaging in iatrogenic arterial injuries; 4

Pseudocysts
Proliferative pancreatic cysts: pathogenesis and treatment options; 274

Pyloroplasty
Pyloroplasty versus no drainage in gastric replacement of the esophagus; 447

Radiotherapy
Results of radical radiotherapy for inflammatory breast cancer; 236

Redox state
Insulinopenia as a risk factor in hepatectomy and its resolution by intraportal insulin administration; 43

Renal failure
Complications of dialysis access: a six-year study; 265

Renal transplantation
Peptic ulcer disease following renal transplantation in the cyclosporine era; 558
Safety of simultaneous aortic reconstruction and renal transplantation; 126

Reperfusion injury
Hydroxyethyl starch macromolecule and superoxide dismutase effects on myocardial reperfusion injury; 59

Residency program
Continued comments on changes in the education of residents in surgery (E); 1
Medical students who enter general surgery residency programs: a follow-up between 1972 and 1986; 491

Residency program selection
Pass/fail grading: a disadvantage for students applying for residency; 63

Resident education
Impact of programmed reading on ABSITE performance; 487

Salivary gland
Major salivary gland lymphoepithelial lesions and the acquired immunodeficiency syndrome; 324

Salivary gland carcinomas
The importance of clinical staging of minor salivary gland carcinomas; 330

Scalp melanoma
The prognostic implications of location for scalp melanoma; 315

Sjögren's syndrome
Major salivary gland lymphoepithelial lesions and the acquired immunodeficiency syndrome; 324

Small bowel
Melanoma metastatic to stomach, small bowel, or colon; 208
Small bowel obstruction in patients with a prior history of cancer; 624

Small bowel obstruction
General surgical problems requiring operation in postoperative vascular surgery patients; 247

Soft tissue reconstruction
Closure of craniofacial defects after cancer resection; 408
The infrahyoid musculocutaneous flap in head and neck reconstruction; 400

Somatostatin analogue
The therapeutic role of octreotide in the management of surgical disorders; 499

Sphincterotomy
Effect of bile diversion and sphincterotomy on gallbladder muscle contractility and gallstone formation; 31

Spinal cord ischemia
Ischemic injury to the spinal cord or lumbosacral plexus after aorto-iliac reconstruction; 131

Spontaneous pneumothorax
Value of computed tomography of the lung in the management of primary spontaneous pneumothorax; 39

Squamous cell carcinomas
Recent experience with squamous cell carcinoma of the anal canal; 580

Stab evulsion phlebectomy
Ambulatory stab evulsion phlebectomy for truncal varicose veins; 166

Staging laparotomy
Staging laparotomy in Hodgkin's lymphoma 1979-1988; 603

Stomach
Melanoma metastatic to stomach, small bowel, or colon; 208

Stroke
Beneficial effects of isovolemic hemodilution using a perfluorocarbon emulsion in a stroke model; 103
Impact of changing attitudes in carotid surgery on community hospital practice; 190

Student evaluation methods
Editorial comment (E); 70
Pass/fail grading: a disadvantage for students applying for residency; 63
The structured oral examination as a method for assessing surgical residents; 67

Supraceliac aorta
Retroperitoneal, left flank approach to the supraceliac aorta for difficult and "redo" aortic reconstructions; 638

Surgical clerkship
A model for the assessment of students' physician-patient interaction skills on the surgical clerkship; 271

Surgical infection
Concealed progress in the management of severe surgical infection (E); 195
Induction of leukocyte activation by meshes surgically implanted in the peritoneal cavity; 243

Surgical resident
Medical students who enter general surgery residency programs: a follow-up between 1972 and 1986; 491

Sutures
Results of 1,000 single-layer continuous polypropylene intestinal anastomoses; 461
Stapled or manual suturing in esophagojejunostomy after total gastrectomy: a comparison of outcome in 379 patients; 256

Testicular circulatory isolation
Distribution and metabolism of doxorubicin in rats undergoing testicular circulatory isolation; 572

Thoracic aorta
A unified approach to the torn thoracic aorta; 473

Thromboembolectomy
Delayed thromboembolectomy for subacute limb ischemia; 468

Thyroid carcinomas
Prospective management of nodal metastases in differentiated thyroid carcinomas; 353

Tracheal reconstruction
An experimental model for the surgical correction of tracheomalacia; 417

Tracheomalacia
An experimental model for the surgical correction of tracheomalacia; 417

Transhiatal esophagectomy
Impact of transhiatal esophagectomy on cardiac and respiratory function; 563
Transient diminished airway protection after transhiatal esophagectomy; 442

Trauma
Editorial comment (E); 460
Heparin, deep venous thrombosis, and trauma patients; 159
Undetected injuries: a preventable cause of increased morbidity and mortality; 457

Unilateral aortofemoral bypass
Unilateral aortofemoral bypass: a safe and effective option for the treatment of unilateral limb-threatening ischemia; 155

Unilateral limb-threatening ischemia
Unilateral aortofemoral bypass: a safe and effective option for the treatment of unilateral limb-threatening ischemia; 155

Ureteral obstruction
Ureteral obstruction after abdominal aortic surgery; 86

Varicose veins
Ambulatory stab evulsion phlebectomy for truncal varicose veins; 166

Vascular access
The Allen Brown shunt: a useful option for vascular access; 24

Vascular grafts
Ureteral obstruction after abdominal aortic surgery; 86

Vascular invasion
A prospective clinicopathologic study of venous invasion in colorectal cancer; 216

Vascular reconstruction
Retroperitoneal, left flank approach to the supraceliac aorta for difficult and "redo" aortic reconstructions; 638
Role of supraceliac aortic bypass for visceral artery reconstruction; 611

Vascular surgery
Endarterectomy: the beginning of modern vascular surgery; 94
General surgical problems requiring operation in postoperative vascular surgery patients; 247

Vein patch
Using a saphenous vein branch for a patch; 486

Vein stripping
Ambulatory stab evulsion phlebectomy for truncal varicose veins; 166

Venous patch angioplasty
Late follow-up of carotid endarterectomy with venous patch angioplasty; 50

White clot syndrome
Diagnostic and therapeutic strategies of white clot syndrome; 175

Wound healing
Local gentamicin application for perineal wound healing following abdominoperineal rectum excision; 438

Wound infection
Effects of electrocautery on midline laparotomy wound infection; 620
